

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

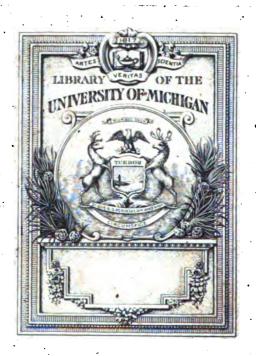

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

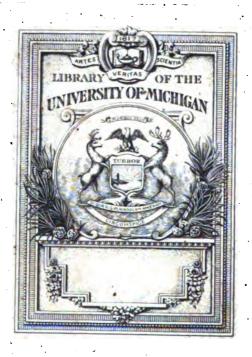

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

COVERING ASSESSMENT LIFE AND ACCIDENT ASSOCIATIONS, FRATERNAL ORDERS AND CO-OPERATIVE FIRE CORPORATIONS FOR THE YEAR 1913.

ASSESSMENT LIFE AND ACCIDENT ASSOCIATIONS ARTICLE VI

THE PROTECTIVE LIFE ASSURANCE SOCIETY

BUFFALO, N. Y.

Possession of this corporation was taken by the order of the Supreme Court made under section 63 of the Insurance Law on February 7, 1913. On February 18, 1913, liquidation was commenced under a further order, pursuant to which all of the outstanding risks upon which loss had not been sustained were reinsured in the North American Accident Insurance Company. On December 1, 1913, the corporation was dissolved, and its liabilities fixed by order of the court at the sum of \$20.711.82, and a dividend of 60 per cent. thereon paid to creditors. It is expected that further dividends will be paid from time to time out of the profits earned under the reinsurance agreement.

PEOPLES MUTUAL LIFE INSURANCE ASSOCIATION AND LEAGUE

SYRACUSE

Possession of this corporation was taken under section 63 of the Insurance Law by order of the Supreme Court on January 18, 1910. On March 3, 1910, the Supreme Court made an order directing the Superintendent of Insurance to liquidate the business of the association. Under a settlement approved by the court on April 9, 1910, all appeals from the order of liquidation were discontinued and liquidation proceedings begun. A dividend of 60 per cent. aggregating \$2,027,021.83 paid to members numbering 37,078, as of August 1, 1910. A dividend of 25 per cent., aggregating \$843,450.64, paid to members numbering 36,998, as of August 1, 1911. All general and insurance claims, except disputed claims, aggregating \$138,710.47 paid, prior to May 1, 1911. Final distribution of assets among members awaits conversion of unmarketable securities aggregating a par value of \$355,000 into cash. It is thought probable that when the final dividend has been paid, the certificate holders will have had returned to them about 92 per cent. of the amounts paid by them to the association.
